

GLOBAL ENTREPRENEUR SUMMIT

LIVE VIRTUAL EVENT

DEC 1ST - DEC 2ND 2022

Get ready for the Digital Decade with the world's largest
Entrepreneur Education Group.

Dear Entrepreneur,

We have been experiencing the most volatile months in recent history with news hard to ignore. Currencies are in turmoil with the Pound Sterling and Euro at record lows. The US just reported consumer debt at its highest ever - up \$300 billion in 12 months. Property markets are beginning to collapse with China on the edge of a meltdown. Russia, US and European governments are talking openly about the threat of nuclear war and many are predicting an imminent market crash.

If you're not concerned about where things are going, you should be. As Miles Davis said, "If you're not nervous, you're not paying attention." What should you be paying attention to? Not the crisis and drama, because there's not much you can do about that. It's the opportunity (or lost opportunity) that you need to be acting on, because fortunes will be won and lost in the coming 12 months.

Things like:

Adoption of green energy is at a record high.

AI, robotics and Web3 tech isn't slowing down but accelerating.

Wage rises for top talent is growing at its fastest rate in history (Yes, inflation is a two-way street when the product costing more is YOU).

And VALUE ASSETS haven't been at such a discounted level for over 30 years.

In fact, today there's more smart money chasing fewer smart deals than at any time in history. In the middle of this crisis, my company, Genius Group, has raised over \$40 million and completed an IPO on the New York Stock Exchange this year (All in the last 6 months).

How did we do it? And how are others choosing to surf this wave instead of getting washed up in it? That's what I'd like to share with you in the two big events taking place in the last quarter of 2022. Because – in a world of the 'great resignation' and 'quiet quitting' where according to the media over 50% of humanity is giving up, you wouldn't be reading this if you weren't in the meaningful minority that are choosing instead to make aid out of lemonade.

We've each still got a business to run, a family to love and a legacy to leave. And suddenly, in this time of extremes, all three just got easier (provided you follow your personal path). So come and join us at one of our experiences throughout the next quarter.

THE FOUNDATION PRISM

Infared Level: The Victim

Infra-red falls deeper in debt month after month. The steps that move you up are not as simple as cutting up your credit cards. Infra-red comes from separation, and the steps that connect you back to flow will surprise and excite you.

Red Level: The Survivor

Red makes just enough money to have nothing. You may even have a successful business, but if you are just surviving personally, you may be at Red level. The steps to move out are not about following your passion – but a value that points in another direction.

Orange Level: The Worker

Orange is someone who works for a living. You entrust others to know how to monetize your time but if market conditions change, you are in danger of losing your job. Understanding how to package, price and promote will empower you for life.

THE ENTERPRISE PRISM

Yellow Level: The Player

Yellow is empowered to forge your own journey. You know how to create value, leverage it and make money in your niche. The next step up is to master not how you make money, but how you help others make money. The tools you need are the opposite...

Green Level: The Performer

Green enables enterprises: The skills and mastery to lead a team profitably is entirely different from self-employment, but the rewards are exponential regardless of whether you own investments or enterprises. The catch is, you still need to be part of the team.

Blue Level: The Conductor

Blue frees you entirely from having your hands full. Blue level has multiple investments and have mastered both cash and capital. When you have become a successful performer in wealth, the skills to turn from facing the audience to facing your performers is not as easy as it sounds.

THE ALCHEMY PRISM

Indigo Level: The Trustee

Indigo is the playground of the billionaire. When you have mastered the enterprise prism, trust becomes your greatest asset and one that you can monetize in magical ways. Understand this level, and you will see the world's wealthy through a new lens.

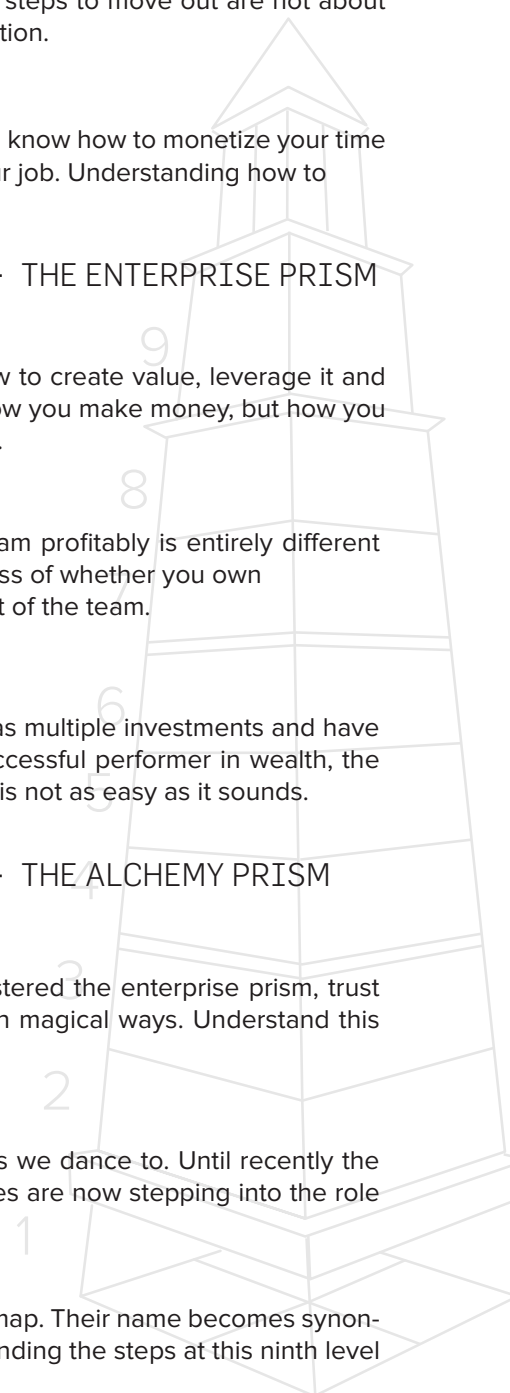

Violet Level: The Composer

Violet prints our currencies, sets our taxes and scripts the tunes we dance to. Until recently the domain of nations, more entrepreneurs, leaders and communities are now stepping into the role of composer and rewriting the rules.

Ultraviolet Level: The Legend

Those at ultraviolet are the symbols to live by, like legends on a map. Their name becomes synonymous with their composition, and are left as a legacy. Understanding the steps at this ninth level gives us a context to navigate effectively.
